Ganja La Pass Trek, a popular trek in the Langtang Region, is located in the western part of Nepal. It is one of the most difficult trekking paths in Nepal hence it requires special equipments, well-experienced guides, porters, and trekkers with great physical stamina previous experience.

Langtang Ganjala Pass trek starts from Syabrubesi and ends at Melamchi Pul Bazar. From Syabrubesi, trekkers will follow the Langtang River to the east until one reaches Kyanching Gompa (3,049m). Kyanching Gompa is surrounded by Mt Langtang Lirung (7245m ) on the west, Yala peak on the north , Dorje Lakpa(6966m), Urkeinmang(6387m), Loenpo Gang (6979) and Kangchenpo on the north-east. In Kyanjing Gompa trekkers also come across small Buddhist monastary and a cheese factory initiated by the Swiss Association for Technical Assistance in 1955.

While crossing the pass one can enjoy the spectacular views of Langtang Lirung and the Tibetan peaks beyond. The highest point of this trek is Ganjala Pass (5,122m). The last few 100m trail of the pass is very shaky and unstable hence one must be very precautious and use necessary safety equipments. The descent from the pass again requires good care as it a steep slope. However the rest of the trail is easy and comfortable. Also since there are no lodges and no settlements for three days along the way, the group should be equipped accordingly.

During the trek, trekkers come across the holy Gosainkunda Lake which a hindu pilgrim site and is another highlight of the trek.
